MIST VI: Mathematics Inspired by String Theory
July 13-15, 2016

Jointly organized by The Institute of Mathematical Sciences & Department of Mathematics, CUHK

Room 501a/502a, 5/F, Academic Building No. 1
The Chinese University of Hong Kong

July 13th (Wednesday)

14:00 – 15:00	[502a]	**Siye WU** (National Tsing-Hua University) *Non-orientable surfaces and electric-magnetic duality*
15:00 – 16:00	[502a]	**Shinobu HOSONO** (Gakushuin University) *Moduli spaces of Calabi-Yau manifolds and classical mirror symmetry*
16:00 – 16:30	[5B Lobby]	Welcoming Reception
16:30 – 17:30	[502a]	**Mandy CHEUNG** (UCSD) *Quiver Grassmannians and scattering diagrams*
18:30		Banquet

July 14th (Thursday)

10:00 – 11:00	[501a]	Discussion
11:00 – 11:30	[5B Lobby]	Tea reception
15:00 – 16:00	[502a]	**Shinobu HOSONO** (Gakushuin University) *Looking geometry from the moduli spaces of CICYs (II)*
16:00 – 16:30	[5B Lobby]	Tea reception
16:30 – 17:30	[502a]	**Cheuk-Yu MAK** (UMN) *Handle attaching in wrapped fukaya category*

July 15th (Friday)

16:00 – 16:30	[5B Lobby]	Tea reception
16:30 – 17:30	[502a]	**Hanwool BAE** (Seoul National University) *Higher rank vector bundles in Fukaya category*

~~ All are welcome ~~
