The Institute of Mathematical Sciences
The Chinese University of Hong Kong

Geometry and Topology Workshop

November 27-29, 2013
Room 502a, Academic Building No. 1, CUHK

November 27 (Wednesday)

10:00am – 10:45am	**Albert CHAU** (UBC)	*Compact Kähler manifolds with non-negative quadratic orthogonal bisectional curvature*
10:45am – 11:15am	Tea Break	
11:15am – 12:00noon	**Matt YOUNG** (HKU)	*Moduli spaces of self-dual quiver representations*
6:00pm	Workshop Banquet*	

November 28 (Thursday)

10:00am – 10:45am	**Chung-Jun TSAI** (NTU)	*Primitive cohomology on symplectic manifolds*
10:45am – 11:15am	Tea Break	
11:15am – 12:00noon	**Masao JINZENJI** (Hokkaido)	*Mirror map as generating function of intersection numbers*

November 29 (Friday)

10:00am – 10:45am	**Mao SHENG** (USTC)	*Representations of π_1 and semistable Higgs bundles*
10:45am – 11:15am	Tea Break	
11:15am – 12:00noon	**Conan LEUNG** (CUHK)	*Witten deformation revisited*

Jointly organized by The Institute of Mathematical Sciences & Department of Mathematics, CUHK
Organizers: Kwokwai CHAN & Conan LEUNG
Website: http://www.ims.cuhk.edu.hk/activities/conferences/

* Participants who would like to join the banquet, please contact one of the organizers before November 24.

❧ This event is supported by "Programme on Geometric Analysis" ❧

❧ All are Welcome ❧
