

# Quivers, Cluster algebras and Mathematical physics

Jointly organized by  
The Department of Mathematics, CUHK  
The Institute of Mathematical Sciences, CUHK

Date: 19-22 December 2016  
Venue: Room 502A, Academic Building No. 1  
The Institute of Mathematical Sciences (IMS)  
The Chinese University of Hong Kong, Hong Kong

---

## Speakers:

- Murad Alim (University of Hamburg)
- Nathan Broomhead (Plymouth University)
- Misha Gekhtmann (University of Notre Dame)
- Kiyoshi Igusa (Brandeis University)
- Travis Mandel (University of Utah)
- Tomoki Nakanishi (Nagoya University)
- Dylan Rupel (University of Notre Dame)
- Rak-Kyeong Seong (Uppsala University)
- Gordana Todorov (Northeastern University)
- Masahito Yamazaki (Kavli IPMU, University of Tokyo)
- Piljin Yi (Korea Institute for Advanced Study)
- Matthew Young (The Chinese University of Hong Kong)

## Organizers:

- Kwokwai Chan (The Chinese University of Hong Kong)
- Man Wai Cheung (Institute for Advanced Study, Princeton)
- Yang-Hui He (City, University of London)
- Naichung Conan Leung (The Chinese University of Hong Kong)
- Gregg Musiker (University of Minnesota)
- Yu Qiu (The Chinese University of Hong Kong)

This event is supported by "Programme on Geometric Analysis".

All are Welcome!
