

Differential Geometry, Calabi-Yau Theory, and General Relativity

A conference in celebration of Shing-Tung Yau's 70th Birthday

May 2-5, 2019
Harvard University
Science Center, Hall C

Speakers

Lydia Bieri, University of Michigan
Tristan Collins, MIT
Simon Donaldson, Imperial College
Fan Chung Graham, UC San Diego
Brian Greene, Columbia University
Nigel Hitchin, Oxford University
Conan Leung, Chinese Univ. of Hong Kong
Jun Li, Stanford University
Chiu-Chu Melissa Liu, Columbia University
Alina Marian, Northeastern University
Xenia de la Ossa, Oxford University
Duong H. Phong, Columbia University
Richard Schoen, UC Irvine
Nike Sun, MIT
Clifford Taubes, Harvard University
Chuu-Lian Terng, UC Irvine
Valentino Tossati, Northwestern University
Karen Uhlenbeck, University of Texas
Cumrun Vafa, Harvard University
Mu-Tao Wang, Columbia University
Edward Witten, IAS
Stephen Yau, University of Illinois, Chicago

Organizers

Wilfried Schmid, Harvard University
Clifford Taubes, Harvard University
Cumrun Vafa, Harvard University
Horng-Tzer Yau, Harvard University

Sponsored by the Harvard University Department of
Mathematics and the Center of Mathematical Sciences
and Applications.
